

Are you servicing this potential source of bookings?

Can these non-ABTA/GTG/TTA travel agents access your brochures?

Version 17 (04/07/2011)

We have listed below three categories of UK travel agencies who are not members of the three main organisations – but still sell leisure travel products and have told us they want brochures and information. You can increase your sales by allowing these shops to order your brochures where they feel they can sell from them.

- 1. Non ABTA Worldchoice and Advantage members** who want full brochure supplies (some don't as they are business house travel specialists or call centres).
- 2. Travel agencies with an ATOL** (and some also have an IATA license) who have indicated they want brochure supplies for their shops.
- 3. Travel agencies with an IATA license only** (not ATOL) **or without any membership or license** who have indicated they want brochure supplies for their shops.

All the agencies in these three categories are automatically Z grade (BP) or for Au ZZZ or XXX grade and your current request controls for this grade apply. For Category 1 your 'rest of' Advantage ABTA and Worldchoice ABTA grading and request control are used. Please advise your Account Executive if you want any of these agents to have different grades and request controls.

You may have some of these outlets on your own distribution database as 'supplementaries' (BP) or 'dummy' numbers (Au). Please ask your Account Executive to shift the grading to our 'master' record below and delete secondary record.

Please note any former ABTA numbers shown below and change your reservation system to the new number.

We expect these lists to grow and will update you regularly via 'new agents' on BP's BrochureXec or Au's online reporting system. You can access the current list at www.omsgwebspaces.co.uk/otheragents

- 1. Non ABTA Worldchoice and Advantage members who want brochures.**

These shops have full access to Trade-Gate to order brochure supplies. **They also receive Mailbag (the 'ABTA' version).**

Outlet Number	Name	Town	Postcode	Former ABTA number	Consortia	Brochure supply category

2. Travel agencies with an ATOL (may also have an IATA license).

These shops have full access to Trade-Gate to order brochure supplies. **They will also receive Mailbag.**

The reference number for these outlets is their ATOL number (if the ATOL number applies to more than one shop it is usually allocated to the head office). **It would be helpful if you adopted this number too, so bookings and therefore distribution gradings tie together. Once you have this reference number on your computer you can advise the outlet that you accept it as the location number for any booking they make. We will be encouraging the outlet to request principals to use this common number.**

3. Travel agencies with an IATA license only (not ATOL) or without any membership or license.

These shops have full access to Trade-Gate to order brochure supplies. **They will also receive Mailbag.**

The agencies in this category do not have an industry standard outlet number. BP/Au has allocated them a five digit 'NL' number. It would be helpful if you adopted this too, so bookings and therefore distribution gradings tie together. Once you have this NL number on your computer you can advise the outlet that you accept it as the location number for any booking they make. We will be encouraging the outlet to request principals to use this common number.
